Overhead Tube Crane (OTC) Digital Radiography System

HEALTHCARE

Revolve around your patient.

Proprietary software eliminates the need to toggle between screens, streamlining workflow.

The versatile OTC system

Perform efficient Digital Radiography exams from almost anywhere in an exam room with the versatile OTC system. Driven by customizable software, the system features a ceiling-mounted X-ray tube that moves about the room to treat patients while lying down, sitting or standing, including those in a wheelchair or gurney. Your staff will find the ease of use and the imaging flexibility they need to make fast, accurate diagnoses.

- Superior image quality
- Simple workflows
- Automated efficiency

KONICA MINOLTA

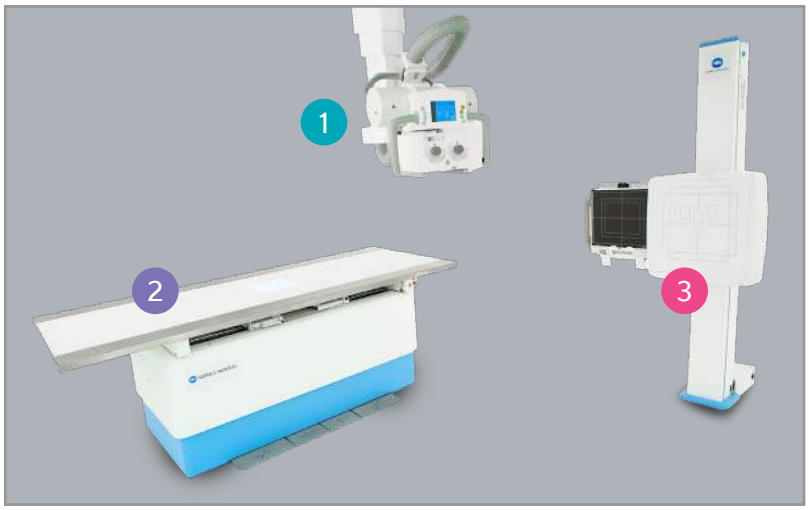
Comfort for patients. Convenience for clinicians.

Superior image quality

The acclaimed Ultra software controls the system and processes images with outstanding speed and quality. The built in detector acquires high quality images while the OTC system design ensures proper alignment between tube and detector without losing positioning flexibility. In sum, the OTC system provides superior image quality and optimized work-flow.

Simple workflows

The OTC system features the ULTRA software interface that confines all relevant acquisition information in a single screen, enhancing clinician productivity and freeing up time to spend with patients. The software is also customizable to support your specific image capture needs.



1. Positioning can cover the most of the exam room
2. Elevating table for a variety of configurations
3. Upright wall stand provides a wide range of tilt angles and large vertical travel distance

Detector		
AeroDR®	17" x 17" and 14" x 17" Detector Combinations	Multiple Configurations Available

Configuration Options				
Tube Mounted Control	Four-way Floating Table	Multiple Tube/Generator Combinations	Pediatric Imaging Package	Rotating Bucky for 14" x 17" Detectors
Generator Control	Tilting Wall Stand	DAP Meter	Custom Views	Angle Read-out
Advanced Processing Algorithms	Ceiling Suspended Tube	AEC		

Comprehensive coverage for peace of mind

To minimize downtime, maximize productivity and mitigate risk over a long functional life, the **Konica Minolta Blue Moon Select** plan for the Overhead Tube Crane (OTC) goes beyond typical warranty coverage by including DR panel protection, software updates, onsite service, remote applications, and 24/7 technical assistance. One simple plan. No worries. Sign up at the system point of sale for the lowest five-year cost of ownership.
